INTRODUCTION.

The increasing interest of the public in the old wills filed in the office of the Secretary of State has caused the Trustees of the Public Libraries to authorize the Secretary of State to prepare the within publication. An abstract of every will found in the office of the Secretary of State is published herein. These abstracts show the name of the testator, place of residence, names of wife, children, legatees, witnesses, probate officer, etc.; also, names of plantations mentioned and remarkable items or noteworthy passages in wills.

The first record I have been able to find providing for the keeping of wills in the office of the Secretary of State is the following order:

Order'd that a Commission be Deliver'd to ye Honble Majr Samuel Swann Esqr Secretary of State for this province Impowering him to keep an office for ye proving of Wills Granting administrats & probetts and all other Matters for ye Ordering & Securing of Dead Mens Estates according to ye foll Rules.

The original of this paper was found by the late J. R. B. Hathaway in the courthouse at Edenton.¹ This order is without date, but was issued about 1700, as Samuel Swann was Secretary of State in that year and the first of his records are dated at that time.

The next legislation I find in reference to wills is an act of the General Assembly of 1715, chapter 48, the caption and first three sections of which are as follows:

AN ACT CONCERNING PROVEING WILLS AND GRANTING LETTERS OF ADMINISTRATION AND TO PREVENT FRAUDES IN THE MANAGEMENT OF INTESTATES ESTATES.

I. Be It Enacted by his Excellency the Pallatine & and the rest of the True & Absolute Lords Proprietors of the Province of Carolina by & with the advice & consent of the rest of the Members of the General Assembly now met at Little River for the No. East part of the province & by the Authority of the same.

II. It is Hereby Enacted & declared that all Wills & Administrations heretofore proved & granted by the Council, General Court, Precinct Court or by powers or Commission heretofore granted by any Governor, Deputy Governor, President & Council to any particular person or persons shall be deemed adjudged & taken to be good & effectual to all Intents & Purposes whatsoever as if proved before Or granted by any Ordinary or other Ecclesiastical Judge or person.

III. And Be It Further Enacted by the Authority afors'd that it shall & may be lawfull for the Governor or Commander in Chief for the time being the General Court or Precinct Court to have Wills proved before them and Grant Orders for Administration. Provided the same be not repugnant to the Rules & Methods prescribed in this Act And Provided that the Granting Letters Testamentary or Letters of Administration allways Excepted which shall be allways from & after the Râtifcation of this Act signed by the Governor or Commander in Chief for the time being and sealed with the Colony seale & only Issuing out of the Secretary's Office & Counter signed by the Secretary or Deputy. * * * * *

This act validates probates up to that time, confirms letters of administration previously granted and provides for the better regulation of these matters.

¹Published in *The North Carolina Historical and Genealogical Register*, Vol. III, p. 57.

In 1723 a law was enacted more rigidly enforcing the making and filing of inventories. Both the acts of 1715 and of 1723 were brought forward and confirmed in 1749.

During Governor Dobbs' administration, in 1760, acts were passed² "to establish Inferior Courts of Pleas and Quarter Sessions in the several counties in this Province," and³ "for establishing Superior Courts of Pleas and Grand Sessions and regulating the proceedings therein." These acts provided for the filing and recording of wills in the clerk's office, which is still the law.

In an act of the General Assembly of 1754, ch. 6, sec. 8,⁴ it was recited that "many original wills, patents and deeds have been lost for want of convenient offices to keep the same." The various migrations of our capital since that date have undoubtedly added to these losses.

Many of the wills here are in bad order, decayed, foxed and faded, and some of them are illegible. Where there is doubt as to correct recording of a will it is so stated or queried. The earliest will found is that of Mary Fortsen, which was made in 1663, but there are not many before 1690. There are a few wills filed here since 1760 which have been included in the abstract list. Occasionally it is found that a testator who was known to be an educated person signed his will by making his mark, so it is not always an evidence of illiteracy when the will is signed by a mark, nor is the signature to the will generally a satisfactory signature of the testator, as often he was sick, weak or infirm in body at the time of signing the will. The original spelling has been preserved in making abstracts of wills and the same name is often found spelled in several different ways. It will be observed that the terms "father-in-law" or "mother-in-law" often mean stepfather or stepmother; sometimes they

²Col. Rec., Vol. XXV, p. 405.

³Col. Rec., Vol. XXV, p. 433.

⁴Col. Rec., Vol. XXV, p. 306.

are referred to as "father" or "mother." The term "cousin" will be frequently found to mean nephew or niece.

It is interesting to note that in wills prior to 1752, two years are generally named for dates in the months of January, February and March; for instance, January 20, 1718-9; but this was not always the case, and occasionally only one year is given. As examples, see wills of

CATHERINE BUSBEY, made January 22, 1738-9. Proved February Court, 1738.

THOMAS BARCLIFT, made November 14, 1750. Proved at January Court, 1750.

NICHOLAS BLACKMAN, made August 26, 1730. Probated March 11, 1730.

On the continent and in Scotland the Gregorian Calendar was in use, but it was not adopted in England until 1751, when Parliament passed "An Act for Regulating the Commencement of the Year, and for Correcting the Calendar now in use." This act provided that the year begin on the first day of January, 1752, and not on the twenty-fifth of March, as was then the usage. The same act provided that eleven days be omitted in September, 1752,⁵ "and that the natural Day next immediately following the said second Day of September, shall be called, reckoned and accounted to be the fourteenth Day of September, omitting for that Time only the eleven intermediate nominal Days of the common Calendar, and that the several natural Days which shall follow and succeed next after the said fourteenth Day of September shall be respectively called, reckoned and numbered forwards in numerical Order from the said fourteenth Day of September, according to the Order and Succession of Days now used in the Present Calendar." If this is kept in mind, it will reconcile many apparently contradictory dates.

The abstracts were prepared by Messrs. WM. H. SAWYER

⁵Statutes at Large, Vol. VII, 1747-1756; 24 Geo. II., C. 23, A. D. 1751, and as amended by 25 Geo. II., C. 30 A. D. 1752.

and JOSEPH E. SAWYER, the proof read by Messrs. W. P. BATCHELOR and JOSEPH E. SAWYER, and the index made by Mr. W. P. BATCHELOR. To these gentlemen I desire to make acknowledgment for their faithful service.

It is expected that this work will be interesting and helpful in genealogical research and especially valuable as illustrative of the domestic history of our people. It will also be found useful in tracing titles to properties.

I propose

this may be done in Virginia; after which let them learn French; perhaps some Frenchman at Santee will undertake this. When they are arrived to years of discretion let them study the Mathematicks. To my sons when they arrive at age I recommend the pursuit and study of some profession or business (I could wish the one to ye Law, the other to Merchandize), in which let them follow their own inclinations. I will that my daughter be taught to write and read and some feminine accomplishments which may render her agreeable; and that she be not kept ignorant of what appertains to a good housewife in the management of household affairs. Item: I give to each of my executors a gold ring as a token of the respect, etc. I will that a brick Vault may be built at Groveley and my Dear Wife's body taken up out of the Earth and brought and laid there; if it should be my fortune to die in Carolina so as my corpse may be conveyed thither, I desire that one large Coffin may be made and both our bodys laid together therein and lodged in the said Vault." *Executors*: EDWARD MOSELEY, ROGER MOORE, NATHANIEL RICE, SAMUEL and JOHN SWANN, WILLIAM DOWNING and EDWARD SMITH. *Witnesses*: MEHITTABEL RUTTER, JOHN HAWKINS, CORNELIUS DARGAN, MICH RUTTER.
